NORTHSIDE CENTER

Head Start and Early Head Start

Northside has Head Start and Early Head Start Centers in East Harlem, The Bronx, and Brooklyn. The Centers provide comprehensive early childhood education and family support services for children from birth to age five. Head Start and Early Head Start promote school readiness, healthy development, and family well-being through high-quality education, health and nutrition services, family engagement, and integrated behavioral health support. The holistic program ensures children build the social, emotional, and academic foundation for lifelong success. As students move up, families continue to receive follow-up support and resources to strengthen resilience and ensure their overall well-being.

WE SERVE

- Infants
- Toddlers

92%

of our Head Start students met or exceeded developmental expectations for socio-emotional development.

"**I've had multiple sets of grandchildren attend Head Start [at Northside], this is a great school, I love it. I love how the teachers are around the kids, I love how my grandchildren have fun and educational activities to do. We are so lucky to be a part of this school.**
